a stunning tale of suburbia's darker underbelly by the critically acclaimed author of *i wanna be your joey ramone*

ballads are the kind of songs that kara mcnaughton likes best not the clichéd ones where a diva hits her dramatic high note or a rock band tones it down a couple of notches for the ladies but the true ballads the punk rocker or the country crooner reminding their listeners of the numerous ways to screw things up in high school

peter balakian is a renowned poet scholar and memoirist but his work as an essayist often prefigures and illuminates all three i think of vise and shadow as two dimensions of the lyric literary and visual imagination he writes in the preface to this collection which brings together essayistic writings produced over the course of twenty five years vise as in grabbing and holding with pressure but also in the sense of the vise grip of the imagination which can yield both clarity and knowledge consider the vise grip of some of the poems of our best lyric poets how language might be put under pressure as carbon might be put under pressure to create a diamond and shadow the second half of the title both as noun the shaded or darker portion of the picture or view or perspective partial illumination and partial darkness and as verb to shadow to trail secretly as an inseparable companion or a force that follows something with fidelity to cast a dark light on something a person an event an object a form in nature vise and shadow draws into conversation such disparate figures as w b yeats hart crane joan didion primo levi robert rauschenberg bob dylan elia kazan and arshile gorky revealing how the lyric imagination of these artists grips experience shadows history and casts its own type of illumination creating one of the deepest kinds of human knowledge and sober truth in these elegantly written essays balakian offers a fresh way to think about the power of poetry art and the lyrical imagination as well as history trauma and memory

only a few westerns contain explicitly jewish stories or themes and very rarely do old west tales involve identifiably jewish characters yet jewish contributors have shaped the western once hollywood s most popular genre ever since the silent era both onscreen and offscreen and some filmmakers have sought to infuse the genre with a distinctly jewish sensibility in chai noon jonathan I friedmann applies some of the central questions of jewish film studies to the western what makes a movie jewish what counts as a jewish image on screen what types of jewish representation are appropriate how much of a film s jewishness owes to the filmmakers and how much to the viewer s interpretation this volume joins other reconsiderations of outsider and minority representations in westerns to offer a more nuanced view of the genre friedmann engages with larger themes of jewish identity in popular film including depictions of race ethnicity and foreignness he also identifies similar concerns within the invention and creation of the imaginary west writ large in american culture the juxtapositions prove to be both unexpected and intuitively understandable
